**Texas State Chairperson**

Welcome to the 1974 Raza Unida Party State Convention. In our young history as an independent political party in the state of Texas we have accomplished many things. Since the Birth of our party in 1970 in Zavala, Dimmit, La Salle, and Hidalgo counties, we have now become a new alternative in the political life of this state. We are now a party that is legally recognized throughout the state of Texas. With all of these accomplishments of organizing the Partido throughout the State and electing people to offices and capturing control of local governments, we are now ready to take on a heavier responsibility and a New Task.

From now until November 5th we have to work harder than ever before to help and elect all Partido candidates. But more important, we have to work to insure that a stronger Partido and organization will result from all the work that we do. After the election in November we have to make sure that the Partido will continue to be a Party that the Chicano community can respect and believe in. A Partido that belongs to us and is ours, and belongs to nobody else, and will be ours for all time to come. Con la voz y el apollo de todos ustedes, Venceremos.

**Candidate for RR Comm.**

Representation of the people of Texas stands out as the most important issue in the year 1974. Raza Unida Party stands for fair and honest representation of the people's interest, not those of giant corporations. We must unite as never before! We must work as never before to defeat this small interest group that puts profit before the welfare of the people. At present there is no way that democracy or representation and the Texas Railroad Commission can be linked or associated. Let us change this! Let us return the government to the people! VICTORIA EN 74 y QUE VIVA LA RAZA UNIDA.

**\*\*\* Silk Screen**

The silk screen is a device that can be used by Raza Unida Party people in order to save money on printing posters. With the cost of labor at an all time high, it is very obvious that going to a printer for all printed material is going to be expensive. Printers have to eat, but so do Raza Unida people. By silk screening, the partido organization only has to pay for the material needed, and not for the costly labor to print all the signs needed to win an election with a certain amount of quality.

Silk screening is very easy to learn and one need not be an artist to produce some good looking posters. All you need is a ruler and a little bit of ingenuity. The Harris County Raza Unida and many other counties already have silk screening facilities, but for those that still lack them, you are invited to see how silk screening works and learn how to build your own silk screen. A free booklet will be passed out and the training will only take about 15 minutes. Every county should have these type of facilities for they can cut printing costs for signs by about 50%. Please look for information on the training sessions and come by. Gracias...

Candidate for Governor

Skeptics sneered at our united efforts to break with the Democratic Party in order to build a new party. Since January, 1970, our energies have been directed at building a new party in Texas. We succeeded in 1972 at not only collecting the required signatures to earn a place on the ballot but also made Briscoe the first governor to hold the office in spite of a majority of the electorate voting against him.

Because we have succeeded in breaking away more than one quarter million voters from the Democratic Party, the legislature controlled by that same party, in 1973 passed a law requiring of us twenty percent of the total vote in order to remain a major party in Texas.

We will triumph again.

The people of Texas view our party as a new hope. We are the party for the future. The voters of Texas will slap Briscoe and his party with a deafening defeat. Citizens want a change. Citizens demand a new governor. With your continued dedication and hard work, I will be that new governor.

Together, you and I, will turn a new page in Texas history. People together behind the nominees of the Raza Unida Party will make our party bigger, stronger and victorious on November 5, 1974.

The General Election is but 46 days away. Let us pledge today to emerge from our convention a solid block of concerned and committed citizens armed with vigorous leadership, a strong platform and a greater will to win. Si se puede en '74.
